SUMMARY

Results-driven Full Stack Software Developer with strong experience in building, maintaining, and scaling web applications using modern frameworks and APIs. Skilled in Django, Django REST Framework, FastAPI, React, and JavaScript-based technologies. Proven ability to deliver mid-level features, resolve bugs efficiently, and collaborate within agile teams. Adept at quickly learning new technologies and committed to writing clean, maintainable code that solves real-world problems.

PROFESSIONAL EXPERIENCE

Full Stack Software Developer

Testpress | Sep 2024 – Present | - Developed and maintained mid-range features across backend and frontend modules using Django, Django REST Framework, and FastAPI. - Built and optimized REST APIs to support scalable application architecture. - Fixed production and staging bugs, improving system reliability and performance. - Collaborated with team members using Git and GitHub, following best version control practices. - Worked with modern frontend tooling including Tailwind CSS, TypeScript, NPM, and Vite. Followed clean coding practices and participated in code reviews to maintain code quality.
